4/8 Object Communicator KA1407

It scans! This communicator allows the user to place items in enclosed compartments. As it scans through each place, it illuminates the object with 6 super bright lights. It can scan either 4 or 8 compartments allowing the user to build skills. Scan speed and volume are selected by switches on the back of the unit. The unit can record 6 levels of 8 items. Total recording time is 5 seconds per compartment.

Size: 17" x 12". Compartments 3¼" x 3¼" x 2¼". Requires Capability Switch and 4 AA Batteries

Was \$650.00 Now \$200.00 below cost
