Handheld communicator *with* Environmental Control

Jive!

Jive! is a totally new and proprietary handheld communication aid. *Jive!* offers a wide range of symbol and text communication, uses the incredibly clear Acapela voice synthesiser and introduces full infrared environmental control for the first time in an AAC device of this size. As a dedicated communication aid, the Possum *Jive!* will remain an extremely reliable and easy to use communication aid for years to come. The device is fully programmable onboard or via the software included with purchase. With its modern contemporary look and feel, the *Jive!* offers a complete lifestyle solution with the added reassurance of Possum's reputation for reliability.

Device

- Handheld, Lightweight and Portable
- Dimensions (Approx) **Width:** 85mm **Length:** 145mm **Depth:** 40mm
