

## Switch Mounts

### Choose Your Clamp

#### **Multi-Clamp**

This clamp anchors onto all kinds of objects with square or round edges from wheel chair frames to table edges. Suits our **Light Articulated Switch Mount** and **Sturdy Flexible Switch Mount**.

#### **Mini-Clamp**

This clamp is smaller and neater than our multi-clamp. Particularly useful for clamping to round bed or wheelchair rails. Suits our **Light Articulated Switch Mount** and **Sturdy Flexible Switch Mount**.

#### **Light Articulated Switch Mount**

The 2 Section Switch Mount is 60cm long and has 3 swivel joints with hand adjustable lock nuts. It comes complete with a mini-clamp or multi-clamp that anchors onto all kinds of surfaces from wheel chair frames to table edges, as well as an adaptor to suit your choice of switch. Also available in a longer 87cm version with 3 sections. (switch extra)

#### **Light Articulated Switch Mounts**

2 Section with MULTI CLAMP: SM-LA  
2 Section with MINI CLAMP: SM-LAS

3 Section with MULTI CLAMP: SM-LA-3-SECTION  
3 Section with MINI CLAMP: SM-LA-3-SS

*2 Section with Multi-Clamp and Jellybean Switch*

*3 Section with Mini-Clamp and Jellybean Switch Plate (Mounted on bed frame)*

#### **Sturdy Flexible Switch Mount**

This Flexible Switch Mount is by far the strongest flexible mount we have ever offered. The flexible section is 55cm long and a sturdy 18mm in diameter. It comes complete with a mini-clamp or multi-clamp that anchors onto all kinds of surfaces from wheel chair frames to table edges as well as a swivel ball joint and adaptor to suit your choice of our switches. (switch extra)

#### **Flexible Switch Mount:**

with Multi-clamp: SM-F55X18  
with Mini-clamp: SM-F55X18S

*Sturdy Flexible with Multi-Clamp and SPECS Switch*

# Switch Mounts
